

# Let's Build Our Communities Together 2.2

Are you concerned about what's going on in our country and your community?

Things do not seem to be getting better!

Who cares about the economy, the next generation, crime and unemployment!

What is the solution to poor parenting skills?

Retirees being excluded from Medical Plans!

Are you loosing hope for your community and the country?

The **Society of the Ventures & Investments Programme (VIP)** is deploying its **Let's Build Our Community Together 2.2** Promotion to grow its membership throughout the country and by which to implement the **AntsNest Wellness Plan** as the solution to all your problems.

The VIP is self-funded by the generous **Contributions** and membership fees, which are donations from its members and others. Nothing is bought or sold. Members enjoy benefits in relations to their **Contributions** which include their time, talents and treasures; sharing is the key. Free membership is also available. However, the more **Contributions**, in donations, which you pay to the VIP's **Trust Funds**, the more benefits, opportunities and privileges which will become available to you, your family, institutions and communities; to succeed.

There exist three classes of benefits; called **Business Arrangements**. The first is benefits which are created for you by others. The second is benefits created by members like you, in collaboration and cooperation with others. You get more of what you want! And the third is synergistic benefits, comprised of the previous two.

Members can take as much or as little as they need from the VIP, to add to what they can do for themselves, to get more of what they want. Persons who actively participate in the VIP are called members of the **50'Clock Krew**. These are **Elite Activists**. **Elite Activists** are members of the VIP who get things done!

There exist numerous generous incentives for your active participation in the VIP and in the promotion.

#### So, how can you be part of the solution?

There are things which only you, as an individual, can do for yourself. Do them! There are things which only you, your families, your institutions and your communities can do for yourselves. Well, do them! There are things which only the State can do for you, your families, your institutions and your communities. Let the State do them! The VIP provides that neutral platform which brings the three together, to create that sturdy foundation which becomes the fabric of your lives and livelihoods. Beware, the life and livelihood you save may be your own!

Come! Let's get together right now, as one common people! Let's engage in the VIP's **Let's Build Our Communities Together 2.2** Promotion. Let's implement the **AntsNest Wellness Plan** throughout the country!

The **AntsNest Wellness Plan** is a **Community Management Plan**.

It addresses the **Cohesiveness, Safety, Security, Welfare and Wellbeing of participating communities**; focus upon the **Youth, Women, Male underachievement and Retirees**.

The **AntsNest Wellness Plan** is managed within each village by a **Community Committee** known as a **GeoNet Team**, comprised of eight leaders who are members of the VIP, selected by financial VIP members in your village community. Similarly, each **Municipality** is managed by a **Community Committee** known as a **GeoNet Cell** comprised of eight members of the VIP, selected by financial VIP members in your village communities within your **Municipality**.

Each **GeoNet Team** reports to its supervisory **GeoNet Cell** who is responsible to collaborate with and to coordinate the activities of all subordinate **GeoNet Teams** within your **Municipality**. Their main responsibilities include to bring all the VIP benefits, opportunities and privileges to you, your families, institutions and communities.

These leaders are exemplars who must be financial members of the VIP. They are designated the honorary title, **Elite Activists**.

Your **GeoNet Cells** and your **GeoNet Teams** are responsible to ensure an abundance of **Vocations**, which means productive activities, sharing, training and entrepreneurship, is being promoted by numerous **Vocation Committees** established by financial VIP members who live within your villages and **Municipalities**; ensuring that all of the benefits of the VIP are equitably distributed to each member of your village and **Municipality**. They do so by learning and implementing powerful systems and strategies, known as **VIP Infrastructures**, to transform minds which create a healthy **Culture of Success**.

Here, by invoking the principles, policies and service providers who qualify under the **Model Parent Mentoring Plan**, a subset of the **AntsNest Wellness Plan**, and such other **VIP Infrastructures**, you and your community can better organize your affairs to cooperate, collaborate, share and mentor one another in productive conversations, training and activities to overcome the **Start & Stop Syndrome (3S)**, and become more **independent** and to practise more **interdependence** amongst yourselves and others, to produce better children, who become better parents, who establish better institutions and better communities, to achieve **Success, Health, Wealth & Happiness**; each to their measure during their lifecycle.

They learn the principles from **Social Network Science** and **Social Entrepreneurship** to share and to **social network** amongst themselves and with other communities, institutions and with their **diaspora**, under the **AntsNest Network** and the **Family Tree Affiliate Programme**, to become the world's critical-thinkers, innovators, problem-solvers, astute leaders and entrepreneurs; who produce **Food Security, Income Security, Health Security and Social Security** for our nation.

They become the preferred providers of labour, goods, services, including astute leadership and entrepreneurship to the world.

They learn to apply the principles, teachings and resources of **Business, Agriculture, Sports, Arts, Pan Culture**, their democratically controlled **Community Entrepreneurial Cooperatives, Community Entrepreneurial Societies** and non-profit **Community Entrepreneurial Trust Funds**, to manage **risks, health, relationships and wealth** to create a **Culture of Success** which is applied to create the type of children, parents, leaders, entrepreneurs and peoples that we want, which we need to improve the welfare and wellbeing of our communities; reducing **Crime and Anti-social behaviour**; to make this world a better, safer, happier place to live.

They shall diversify the economy into a **Medical & Wellness Economy**, an economy which has no season, and is always in demand, creating perpetual **Intergenerational Wealth** which they transition onto their **Grandchildren** and produce **Income Security** for future generations; creating better, more prosperous, peaceful communities and nation.

This approach, which produces **shared prosperity**, becomes **communicable**; creating an abundance of competent **Elite Activists**. They live to serve and protect your community. Therefore, you, your family and community can **survive and thrive in any future changing world environment!**

This is your opportunity to network, share, get organized, collaborate, and cooperate with upwardly mobile people of same mind, to become part of the solution to improve your welfare and wellbeing; and you make your **community prosper!**

The VIP invites you to come and learn how you can be part of the solution to all your problems. Learn how you, your family, your institutions and your community can benefit from adopting and applying the **VIP Infrastructures** to construct and deliver your future in **shared prosperity**.
